Professional Portfolio 2021

Stylish and strong, innovative yet affordable, these are just some of the words used to describe our portfolio of Professional bar, table and kitchen products.

Our brands are industry leading and driven by the needs of the professional all over the world. We work closely with them to develop new and innovative products that are designed to exceed the expectations of our customers.

For 2021, we have expanded key ranges such as Sequence, Primary, Granity and West Loop, bringing innovation and sustainability with our new So Urban range of durable glass food containers, bringing the bar alive with the stylish solid color tumblers Broadway Colors and Brixton Colors, and strengthening our dinnerware ranges with 3 different colors of our Evolutions range. All of these, and many more, are designed to bring performance to the professional.

We hope you enjoy looking through our brochure and look out for more exciting launches throughout 2021 and beyond.

Sustainability

A clever blend of sand and heat, glass is a healthy, recyclable and time-honoured material. **ARC** has been making glasses for nearly 200 years, and has renewed its commitment to the Global Compact every year for 15 years. These burgeoning developments in the glass industry have inspired a desire for change and a sense of commitment toward the coming future.

Bringing beauty within the grasp of everyone is firmly in the DNA of our core brands Arcoroc and Chef & Sommelier. Every day our expert glassmakers design and manufacture products which inspire and delight our customers all over the world. Our manufacturing sites bring all their technical know-how to bear in order to conceive the most responsible products which safeguard the health of consumers and make their lives easier.

Our core manufacturing plants are a member of the United Nations Global Compact to which there are 10 principles that are divided in to 4 main themes:

- Human Rights
- Labour Conditions
- Environment
- Anti-corruption

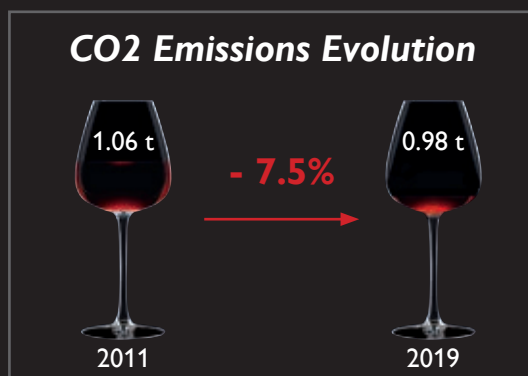

The United Nations Global Compact is recognised around the world and by all our customers, for whom it is a guarantee of good social and environmental practices. Year on year our manufacturing plants strive to

reduce their impact on the environment, these include CO₂ emissions (chart to the left), water consumption and recycled waste.

Each plant also regularly reviews social indicators such as, safety, training and employee inclusion.

All of the above, plus our policy for local supply where possible, helps us in reducing our impact on the world's precious resources.

Brands

A unique signature for tables that become works of art

Chef&Sommelier™ carries on the legacy of the art of living, rooted in the richness of French gastronomy and oenology.

Chef&Sommelier™ designs dinnerware, glassware and adjustable cutlery with sleek and elegant lines. Chef&Sommelier™ creations represent a world of innovation, where the most demanding professionals draw on their expertise to arouse the senses of their guests and create an unforgettable experience for taste buds. Never before have passion, elegance, and high expectations been so deeply anchored in a business. The focus is always on pleasure, creativity, discovery and shared authenticity.

Since 1968, Cristal d'Arques Paris™ has embodied elegance à la Française and beauty within everyone's reach. While staying true to its values, the brand is now incorporating a casual chic look, inspired by the Art déco trend and the Parisian lifestyle.

Drawing on its expertise, Cristal d'Arques Paris™ is undergoing a makeover by reinterpreting the concept of luxury through a spontaneous and modern approach.

Any day, any service, anything can happen. At Arcoroc™, we know all about it: we've been creating effective, durable tableware products since 1958. Because of our continuous search for comprehensive solutions, today we are the preferred partner to the biggest hotels, restaurants and bars in the world.

Our expertise is unique. It's down to our devoted, demanding teams, who place material innovation and design at the heart of our development. All with one objective: to measure up to the pressure and pace of your daily challenges, as well as your creativity and commitment to customer satisfaction.

Gastronomy professionals are searching for glasses that satisfy their needs in terms of perfection and sophistication. Their desire: splendidly elegant table settings with fine, lightweight, extremely transparent products. Their professional needs: intensive daily use requires products that are highly resistant to shocks and detergents. To meet these twin challenges of aesthetic excellence and resistance, The Arc Research Centre is introducing a new generation of lead-free crystal - Krysta, combining superior strength with exceptional finesse.

SUPERIOR STRENGTH

Finer and stronger: the Krysta innovation.

Lip : with a thickness of 1 mm, KRYSTA is 30% stronger*

Stem : ultra-delicate stems (~6 mm in diameter) have twice the mechanical resistance when crafted of Krysta*

Savings across the entire chain: fewer breakages and chipping during transportation, storage, washing and polishing.

* than other standard crystal glasses on the market.

COMPLETE TRANSPARENCY

Krysta is the purest and most transparent crystal glass on the market.

The perfect mastery of its composition, the quality of the sand used, and fusion at a very high temperature gives Krysta perfect transparency.

- Tables enhanced by the sparkle of Krysta.
- The vessel of every wine respected to perfection.

LONGLASTING BRILLIANCE

Krysta has extreme brilliance sustainable over time.

After 2000 cycles in professional dishwasher, Krysta keeps its original brilliance and transparency.

- Glasses that bring their unique brilliance onto your tables.
- Lasting glow you will keep for a long time.

COMPLETE TRANSPARENCY

Thanks to its exclusive formulation, Krysta produces a clear and pure sound in the traditional sound of the best crystallines.

- The seduction of Krysta: a unique sparkle associated with a singular sound for a refined sensory pleasure.

Macaron

C&S
Chef & Sommelier
• FRANCE •

The **Macaron** collection evokes the pleasure of a perfect food and wine pairing through its gourmet name and its remarkable shape. Its bold, rounded contours are ideal for wine. Their potency is reinforced by the two chambers of the glass. The elegant, dazzling shape of the champagne glasses, which are neither flutes nor coupes, is designed to release the aroma of effervescent wines.

	Description	Dimensions	Inner	Outer	Code
New	Decanter 70oz 2L (Mouth blown)	H: 310mm - D: 163mm	1	2	N1010

New	Tumbler 14oz 40cl	H: 103mm - D: 87mm	6	24	N0834

With its remarkable round and elegant bowl, the **Macaron Fascination** collection will completely open up the aromas of the most complex wines. The collection's voluptuous and bold shape was designed with sparkling wine tasting in mind. The **Macaron** collection's 40cl tumbler, whose lyre-shaped rim is similar, pairs perfectly with this collection.

Reveal'Up has a distinct and sophisticated personality, entirely dedicated to the pleasure of wine and perfect service. Its quality stems from the balance between the elegant and light design of the glasses, their perfect stability when held, and the technical features they bring to a tasting. The sensory journey begins with a discovery of the glistening colour of the wines, through the perfect transparency of the glass. It continues with the revelation of the fruity aromas, clarified by the extra-large surface for oxygenation, in a generous bowl.

Fine Rim 0.9mm

For supreme enjoyment

Extra wide for oxygenation

Surface opening of aromas, ideal for all types of wine

Specialist Shape

The chimney directs the wine and aromas

Description	Dimensions	Inner	Outer	Code
Soft Wine 17½oz 50cl	H: 246mm - D: 96mm	6	12	N1738
Soft Wine 14oz 40cl	H: 231mm - D: 91mm	6	24	J8743

Flute 7½oz 21cl	H: 233mm - D: 70mm	6	24	J8907

Open Up

Open Up has a revolutionary design, created for young wines, including the new world (Australia, Chile, California, etc.) served by the glass. These glasses are fiendishly effective. Their shape creates an accelerated decanter effect that encourages aromas to develop. A large surface for oxygenation that closed wines require, a lower part where aromas can develop, and an upper part of the glass that then concentrates the aroma, all come together to allow instant enjoyment.

Fine Rim 0.9mm
Pleasant on the lips for
perfect enjoyment.

the quality is apparent.
Perfectly finished.

Flat base

Prevents water
retention

Glasses in the **Oenologue Expert** collection are, down to the smallest detail, designed to facilitate tasting. With an elegant and unique shape, they were designed by Dany Rolland, Bordeaux vineyard owner and reputed oenologist. All the criteria were studied one by one to create the ideal glass: nose, fruit, aromas, mouth feel, feeling in the hand, weight, length of the stem, etc. This glass demonstrates remarkable durability and delicacy.

Description	Dimensions	Inner	Outer	Code
Goblet / Wine 25¾oz 73cl	H: 255mm - D: 103mm	6	12	U0913
Goblet / Wine 19¾oz 55cl	H: 228mm - D: 93mm	6	24	U0912

Coupe 7½oz	H: 179mm - D: 114mm	6	24	L3678

At the summit of a long and narrow stem, the bowl of glasses from the **Grands Cépages** collection are available in several sizes. They can thus enhance the greatest grape varieties, in all their diversity: from the powerful tannins of cabernet sauvignon to the sweetest and fruitiest chardonnay. With their generous silhouette, their sparkle and their perfect purity, they transform wine tasting into a unique experience, and combine delicacy with durability. Pair with tumblers from the **Primary** collection.

Cabernet

Abondant & Supreme

C&S
Chef & Sommelier
- FRANCE -

To further enhance the **Cabernet** line we have introduced two new shapes, **Abondant & Supreme**. These shapes are designed using the spirit of the classic Burgundy and Bordeaux glasses that can be found on the tables of restaurants all over the world. Effortless in design, the glasses can be used as the main stemware or as accent pieces.

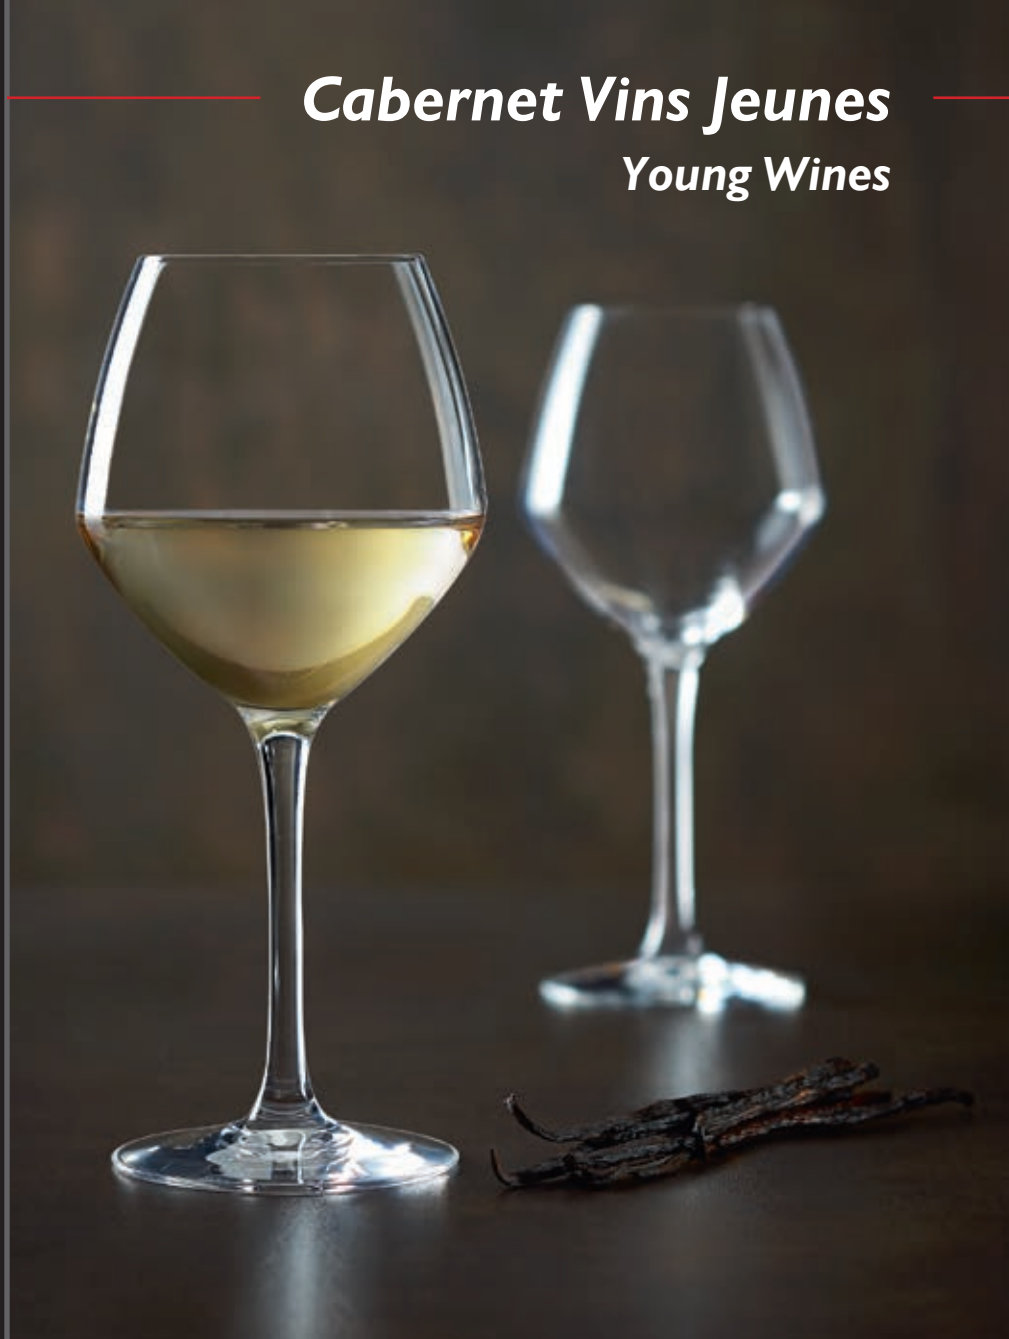

Description	Dimensions	Inner	Outer	Code
Abondant 24 $\frac{3}{4}$ oz 70cl	H: 220mm - D: 110mm	6	12	FJ037
Abondant 17 $\frac{1}{2}$ oz 50cl	H: 201mm - D: 100mm	6	12	FJ038
Supreme 21 $\frac{3}{4}$ oz 62cl	H: 240mm - D: 95mm	6	12	FJ035
Supreme 16 $\frac{1}{2}$ oz 47cl	H: 216mm - D: 87mm	6	12	FJ036

The shape of the **Cabernet Vins Jeunes** fully reveals the aromas and flavours of wine. By filling the glass up to the point where the angle of the bowl changes you obtain the perfect degree of oxygenation required by the wine. The **Cabernet Vins Jeunes** glasses come in three sizes and complete the other designs found in the Cabernet series.

Cabernet Tulip

C&S
Chef & Sommelier
- FRANCE -

With their simple and harmonious curves and their multiple sizes, the **Cabernet Tulip** glasses adapt to all varieties of wine and grapes.

Their technical characteristics (surface area for oxygenation, fine rim, etc.) are designed to draw out the most delicate of aromas to accentuate the sensations during tasting.

Fine rim 1.2mm

Cabernet Sparkling & Cocktail

Cabernet - An International Star

The most cultivated vine in the world and star of Bordeaux has lent its name to Chef & Sommelier's **Cabernet** collection. The elegance of a classic design, sparkle, and outstanding durability – these glasses bring together exceptional features, in a huge range of stems. The collection blends well with any style. Pair with the Primary tumblers and the specially designed Cocktail collection.

Rendez-Vous

CRISTAL D'ARQUES
PARIS

The **Rendez-Vous** collection draws its intense sparkle from the depth and the abundance of the shimmering vertical facets as well as the motion of the mouldings covering the glasses. Spectacularly cut to sculpt light, they display the simplicity of prominent symmetrical lines, structured like a cut diamond as if part of a precious bracelet. Curves add a certain aesthetic appeal reminiscent of the 1930s streamlining trend, based on the form and fluidity of a drop of water. It was an era of reconciliation between beauty and practicality, inspired by motion and movement.

Glass in its purest form Arcoroc has the «High Transparency - Purity certified glass» label on some of its products, this certifies that these items are made with only the highest quality glass. Due to its composition and laboratory-tested and confirmed performance, Arcoroc glassware features an exceptional level of purity**.

**Quality certified by the IWA 8/AFNOR CLEAR GLASS STANDARD

Fully Toughened / Fully Tempered

Our Fully Toughened / Tempered stemware ranges offer an increased life span, up to 15 times longer. They also bring increased strength, thermal shock resistance and safer breakage pattern, all of which bring true added value to any venue requiring a performance product.

**HIGH SHOCK
RESISTANCE**

Savings in terms of budget and restocking costs:

A fully toughened glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

**THERMAL SHOCK
RESISTANT**

Fully toughened products are resistant to variations in temperature of 135°C:

They can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

GLASS SAFETY

Completely safe for service:

When a shock or series of shocks manages to rupture the exterior shell of the fully toughened glass, the resulting broken glass shards are not sharp to the touch.

Domaine brings the classic tulip bowl shape up to date. The fuller bowl with a gentle tapering chimney gives a pleasing aesthetic perfect for casual dining and elegant bars.

Normandie / Lineal

ARCOROC

Normandie collection's lyre shape, its boldly moulded stem with a retro air and its sturdiness are the hallmarks of its success. The three stemmed glasses are perfect for serving water or wine and the 14 cl flute, with its deliciously quaint charm, provides the perfect measure of sparkling wine. On top of its aesthetic qualities, this range boasts stability and tough tempered glass for use on your tables and buffets and for tray service.

The Krysta™ barware items in the **Aska** range bear all the distinctive elements of contemporary high-end tumblers. An unusual conical shape, a heavy base, and thin sides create sophistication. The 38 cl tumbler is available plain or in two versions with a structured base. One is in the shape of a wave and the other features a 'brushed concrete' effect that pairs with the brightness of the crystal-line. This reflection will surprise your customers, who are always looking for innovations.

DIALOGUE BETWEEN CONTEMPORARY AND RETRO

The **Arpège** collection has mastered the art of contrast. These glasses embody contemporary lines contrasted with retro-styled optic feature.

The optic waves stand out in the light, yet fade away when the glasses are filled. Enhanced by the purity and brilliance of Krysta, their optic waves transform the tumblers into pieces of art, created to embellish your table.

ARCOROC

Built to last, the **Granity** range is the ideal workhorse for any bar, club or pub. Focusing on ease of use, versatility and durability – there's a capacity for all drinks in the Granity range from shot glasses to large milkshake tumblers. The panelled sides make the glass easy and comfortable to hold whilst allowing the glasses to nest for easy transport and storage - the design of the panels also means they're impossible to lock.

BEER

Headstart Headbooster Head First

The **HEADSTART** system from Arcoroc is designed to stimulate the trapped CO2 bubbles in carbonated drinks. By releasing these bubbles, the beverage takes on a more attractive appearance and the Headstart system then helps maintain the appearance for longer. Not only do the bubbles make the beverage more attractive, but drinks such as lager will maintain their head for longer.

HEAD BOOSTER & HEAD FIRST

are the latest form of nucleation that is designed to offer the perfect mix between head life, beverage wastage and visual appeal. The laser etched inner surface of each glass stimulates the CO2 found in carbonated drinks and releases it to create a healthier looking beverage with a stronger visual appeal.

CICERONE
S E L E C T I O N

Cicerone Selection is about better beer. The glasses featured in the **Cicerone Selection** are technically designed and specifically selected to make your IPA more floral, that Porter fruitier, that Belgian Amber glow and that Lager taste smoother. Brilliant beers, all with their own unique characteristics, deserve brilliant glassware.

What is a Cicerone?

Up until a few years ago a cicerone was “guide who gives information about places of interest to sightseers”. However, it is now interconnected with the craft beer revolution.

Just as you have a Master Sommelier for wine you can now become a Cicerone via an accreditation program set up by Ray Daniels in 2007.

There are 3 levels to attain to:

- Certified Beer Server
- Certified Cicerone
- Master Cicerone

Each level delves into Beer Service, Beer Flavour & Evaluation, Beer Styles & Ingredients, and Beer & Food Pairing, and is passed via an exam process.

So as the craft beer market grows, so does our tastes for information & innovation and we have the perfect glasses to experience craft beverages to their maximum.

-------------------	---------

Beer as a sensory experience

The importance of getting the right glass for the right beer has never meant more; as every venue's beer portfolio seems to expand and change exponentially, it is only fair that some consideration is given to the glass.

Most of us are aware about wine tasting and how to improve or analyse the sensory experience, but only more recently has the idea of doing the same thing with beer become a mainstream idea - although most places have been unwittingly doing it for decades with branded glasses! These pairings shed light on exactly how to improve your beer.

Cicerone Selection brings you 8 revolutionary glass and beer pairings featuring some of Chef&Sommelier's most striking and innovative glassware. These pairings are designed to push the boundaries of presentation, and make you rethink how beer can be served as an overall sensory experience.

Adventurous and novice beer enthusiasts alike will appreciate the value and specificity of upping your beer serve, because better beers deserve better glasses. Now you can elevate the way that beers are served, with tasting, testing, learning and enjoyment at the very centre of this concept.

Beer Premium

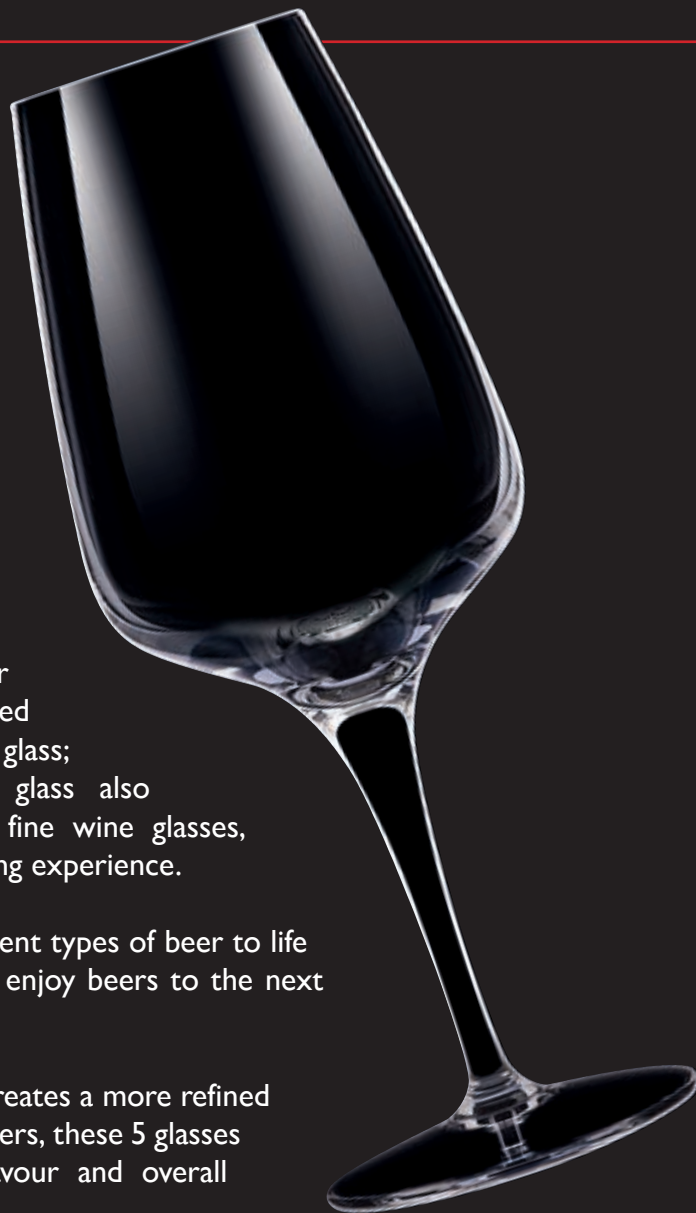

BEER PREMIUM

is the new expert beer glass range from Chef&Sommelier; a brand that has an extensive know-how in wine tasting. This wine tasting know-how and technical pedigree has been converted into an exciting new beer tasting range designed for by experts to accentuate and bring to life all types of craft beer.

The Beer Premium range is made using Chef&Sommelier's ultra-strong and ultra-clear Krysta™ material allowing truly embellished and rich colours to shine through the glass; beers have never looked so great. Each glass also features Sheer Rim Technology, as used in fine wine glasses, this allows for a flawless and pleasurable drinking experience.

Every unique glass in this range will bring different types of beer to life and allow you to take the way you serve and enjoy beers to the next level.

The performance and design of these glasses creates a more refined and well thought out way to enjoy a range of beers, these 5 glasses have been expertly matched to increase flavour and overall enjoyment.

Gastronomy professionals are searching for glasses that satisfy their needs in terms of perfection and sophistication.

Their desire: Splendidly elegant table settings with fine, lightweight, extremely transparent products. Their professional needs: Intensive daily use requires products that are highly resistant to shocks and detergents.

To meet these twin challenges of aesthetic excellence and resistance, The Arc research Centre is introducing a new generation of lead-free crystal - Krysta, combining superior strength with exceptional finesse.

Beer Premium

The right glass for the right beer

A unique collection dedicated to fans of craft beer. Take a look at the silhouettes of these five stemmed glasses: they are designed to showcase all types of beer. Their technical characteristics also guarantee maximum tasting pleasure.

Sheer Rim Technology for a supreme feel and clean drinking experience.

Krysta™ Glasses have a brilliant long lasting shine that outperforms standard Soda-Lime glassware.

98.5% Transparency Index that lets the light through makes beers glow.

Extra shallow bowl for visual and tasting clarity.

Ready for action and super resistant to chips and breaks during regular intensive usage.

Utterly seamless stems with perfectly balanced and flat feet.

BEER TASTING

The diversity of beer, ale, lager, stout and cider is huge and we now have greater expectations on how the flavours are expressed.

Like wine, each of these beverages has their own personality. We recommend you try different beers in different glasses and you will be surprised at the results.

Here are a few of our favourites, but please look at our Beer Legend, Stemmed beer and Premium beer collections for further inspiration.

ARCOROC

The **HEADSTART** system from Arcoroc is designed to stimulate the trapped CO₂ bubbles in carbonated drinks. By releasing these bubbles the beverage takes on a more attractive appearance and the Headstart system then helps maintain the appearance for longer. Not only do the bubbles make the beverage more attractive, but drinks such as lager will maintain their head for longer.

The **Willi Becher** is a well known and popular glass in Germany – the inverse conical shape is ideal for pouring the perfect pint and sits nicely in the hand. The diverse range of capacities makes this range suitable for a wide array of drinks. There are various lining and stamping options available too, which make the Willi Becher glasses a great choice for beer boffins.

Lido is a continental style tumbler – offering bold curves and a sturdy thick base this stable glass is great for presenting cocktails, soft drinks and beers. The 10oz fits a half pint in perfectly and looks the part in the likes of busy sports bars as well as downtown cocktail clubs.

Brandy & Cognac

As the cocktail market continues to grow Brandy & Cognac has seen a revival both as a premium base spirit and as a return to traditional digestif. It has been partnered with Grappa as the Italian restaurant market continues to grow.

Whisky Tumblers

Over the last few years the market for premium Whisky, Bourbon and Spiced Rum has exploded and the pace is set to continue. Premium Japanese Whisky is leading the way and continues to drive the experience making the choice of glassware even more important.

Materials

Look for the
“Effervescence Plus” Logo:

**EFFERVESCENCE
PLUS**

Effervescence Plus

A laser is used to create delicate nucleation points within the base of the bowl. These points are designed to agitate the sparkling wine releasing a gentle and constant helix of bubbles, delighting the eyes and taste buds alike.

Stem Height

A selection of stem heights, helping you find the perfect match.

Flat Foot

For increased stability and reduced water retention.

Sheer rim

For supreme enjoyment

Bowl Shape

Numerous bowl shapes are available thus helping you to find the perfect match for your needs.

Sparkling Cheers

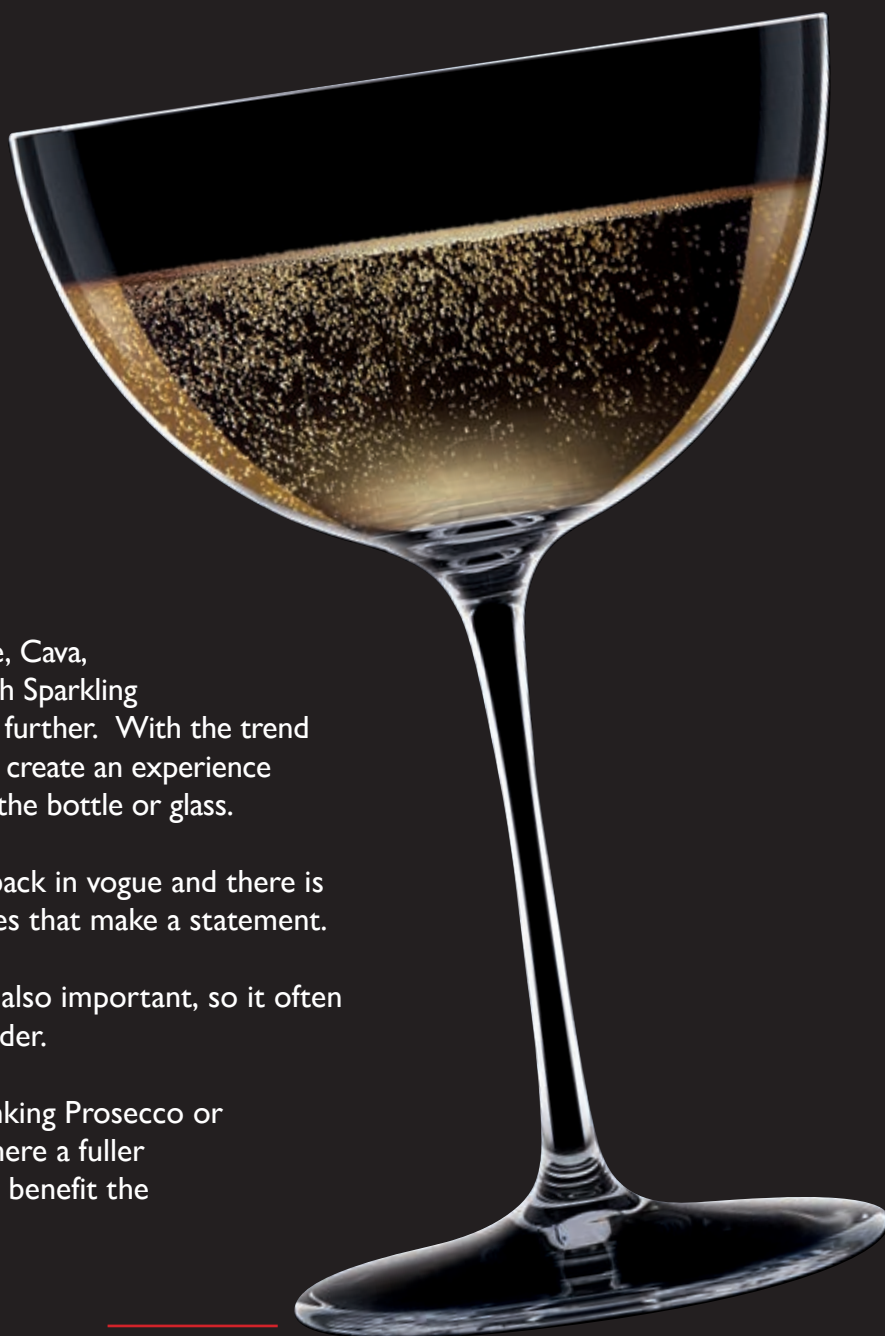

The amazing increase in the popularity of sparkling wines has taken the industry by storm. However, there is so much more verity waiting in the wings.

We are all familiar with Champagne, Cava, and Prosecco, but the rise of English Sparkling wine is set to challenge the market further. With the trend continuing each venue is looking to create an experience when a customer orders either by the bottle or glass.

The classic coupe and saucer are back in vogue and there is high demand for elegant taller flutes that make a statement.

Like wine the shape of the glass is also important, so it often is worth taking sometime to consider.

Are you offering a playful easy drinking Prosecco or a more considered Champagne where a fuller flute, closer to a wine glass, would benefit the beverage.

Premium Sparkling

C&S
Chef & Sommelier
- FRANCE -

The taste of sparkling wine is greatly affected by the shape of the glass. Whether you are drinking Champagne, Prosecco or Cava - each wine will taste better in a different glass.

Exaltation

The new **Exaltation** glass, with a flute-like elongated shape, has all the essential features needed for tasting champagne and sparkling wines.

It's transparency and touch is so delicate on the mouth, that you could almost forget about it, were it not for the way it turns every tasting into a voyage.

Straight shape of the upper bowl

To enable the wine to be deposited correctly on the tongue, thus revealing the balance of sensations associated with the freshness and smoothness of champagne.

Ideal contact surface for detecting aromas

The volume of the aroma chamber and the wide contact surface enable the bouquet to open up and the aromas to develop.

Perfectly calibrated height of the liquid in the bowl

To ensure a short ascension for the effervescence. The bubbles thus remain fine and even, and persist throughout the tasting.

Perfect distance between the surface of the wine and the nose

The gas cloud thus remains contained inside the bowl, resulting in less of a tingling effect during the smelling and tasting stage.

New laser effervescence treatment

Resulting in a complex movement of fluids that enables the bubbles, which carry odour molecules, to swirl around the entire volume of the bowl. The most subtle and least volatile aromas are thus released at the surface. In addition, the visual effect is spectacular!

Exaltation
New glass designed with
world's best sommeliers
especially for sparkling wines

The visual effect is spectacular!

Chef & Sommelier™ is exploring new territory by creating a type of glass that is completely original and infinitely appealing to the senses, taking the wine-tasting experience to a whole new level. It is neither a coupe, nor flute, nor wine glass.

Sparkling

ARCOROC

Brio

The slender flute from the **Minéral** collection revisits the tulip shape with harmony and balance, combining two qualities that are essential for tasting champagne and sparkling wine. The fine 1.1 mm rim contributes to the tasting pleasure. With the flute designed to optimise the effervescence of sparkling wines, the shape ensures an elegant style for your tables.

TRANSPARENCY
PURITY CERTIFIED GLASS

Gin Serves

English Garden

Ingredients:

Gin of choice 25ml
Ice cubes
Tonic water 100ml
Elgerflower syrup 10ml
Splash of lime juice
Garnish with cucumber slices
and a sprig of lavender

Serve in
Cabernet Ballon 70cl (E2094)

Spanish Fig Gin

Ingredients:

Gin of choice
Large ice cubes
Premium tonic water
1 fresh fig
Orange or tangerine slices
1 sprig fresh rosemary

Instructions:

Take a
**FUSION Tumbler
55cl (L7849)**
and measure the gin. Add
enough ice cubes to fill the
glass then fill it up with tonic
water. Garnish with one ripe fig,
a slice of citrus and a sprig of
rosemary and serve.

Gin Pairings

Featured glass: Juniper

Citrusy Gin + Smoked Salmon

Earthy Gin + Strong Cheeses

MEKKANO

build your style

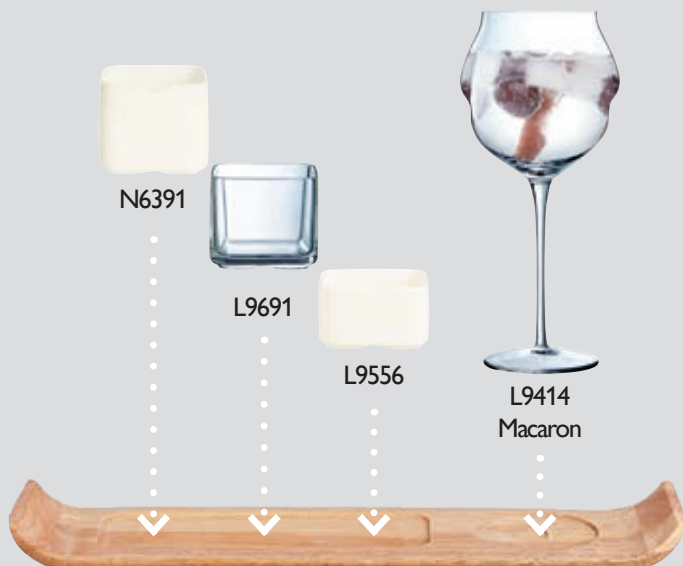

Your favourite gin and tonic combination has never tasted so good – gin pairings awaken the taste buds whilst adding a whole new depth of flavour and experience. Arcoroc have developed the ultimate gin pairing kit in the format of the ultra-adaptable Mekkano Board; featuring multiple different dishes for a range of food, the dishes fit in to the grooves in the board.

There's numerous Arcoroc glasses that fit the board too, but not least, the superstar pinnacle of gin glasses, the Juniper Gin. The Mekkano Board isn't a one off, its uses really are endless!

For more options and information see page 234-237.

Hurricane

The tall, waisted **Hurricane** glass will spark your creativity and lend excitement to your long, ice-cold drinks. Its voluptuous, curved shape showcases colourful, layered cocktails and trendy, colourful ice cream. The same goes for the pots-pourris of dried flowers and multicoloured petals used for table decoration that changes with the seasons.

This glass is also available in tough SAN plastic for poolsides or spas (see page 63).

Hurricane 15oz 44cl	H: 208mm - D: 79mm	6	24	54584

Tall cocktail

Customers first drink their cocktails with their eyes... The **Kyoto** glass adds to the tasting pleasure with its sleek Japanese form. It is designed to present layered cocktails, topped with fruit or sweet skewers. The more creativity involved, the more this glass comes into its own.

These imposing glasses from the **Martigues** collection inspired by pastis glasses can be used in many different ways. They bring out the colours of drinks and cocktails, in their flared, generous shape.

Code: N6666

Parrot

The Tiki-inspired mugs are an excellent way to serve island cocktails like Pina Coladas and Mai Tais. You are guaranteed to have the perfect container for any occasion or theme, whether in an island bar, poolside or in a beach bar.

Skull

Skulls have long been part of popular culture. We see them used in various ways in fashion and interior design. This type of product is already available on the market, but ours is by far the best because of its large size: 90 cl!

Boston Shaker

Boston Shaker

Glass is designed for the bar professional. Each shaker is Fully Tempered / Fully Toughened and is designed to last longer and be safe in use.

Mixology Club

—HERITAGE EDITION—

Mixology Club is all about bringing innovation, ideas, inspiration and individuality to your drinks. Hand selected concepts from the worlds leading glassware brands, designed to give you an unbeatable professional upper hand, bespoke artistic flair and pure technical accuracy when serving drinks. It's what's in your glass.

The *Stinger* originated around 1890. The cocktail may have been derived from The Judge, a cocktail made with brandy, crème de menthe. It was immediately popular in New York, and quickly became known as a “society” drink (i.e. only for the upper-classes).

**Macaron Flute / Wine
(Nucleated) 30 cl
L9348**

French 75

The *French 75* was created in 1915 in Harry's New York Bar in Paris. The drink's creator Harry MacElhone bought the bar from former American star jockey Ted Sloan, who had originally dismantled it in Manhattan and had it shipped over to Paris. Combining gin, lemon, sugar & Champagne, this cocktail derives its name from being said to have a kick like being shelled by a French-75mm field gun.

Dry Martini

The legendary *Dry Martini* is one of the most popular cocktails in existence, unsurprisingly for a drink so popular and well founded its exact origins are unclear, but it is first mentioned as far back as the 1860s. There are many different takes on the *Martini*, the real common ground being that they are all served in the 'Martini Glass'.

Mai Tai

The name *Mai Tai* is allegedly derived from the Tahitian word for “good” or “excellence”, maita’i. The cocktail contains rum, curaçao liqueur, orgeat syrup, and lime juice. The *Mai Tai* became a popular cocktail in the 1950s-60s when it was served during the initial boom of Tiki-themed bars and restaurants, and the cocktail also featured in the Elvis Presley film ‘Blue Hawaii’.

Pina Colada

Beer Legend Brown 59cl - L9941

Aperol Spritz

Popularised in the 1950s, this well known three-part cocktail is a remix of a classic Venetian practice of consuming white wine with soda. Aperol itself was invented in Padua, Italy in 1919 and is intended as a light liqueur alternative.

Cabernet Supreme Wine 47cl - FJ036

Mixology
Club

—HERITAGE EDITION—

The *Rusty Nail*, in some form or another, dates back to 1937, in its first appearance it was ostensibly named B.I.F, after the British Industries Fair and credited to one F. Benninam, it is a simple mix Drambuie and Scotch whisky. For the next 30 years the cocktail went by many names, versions and inspired countless diverse new cocktails.

Rendez-Vous Rocks - 32cl - N9888

Blood and Sand

Blood and Sand is one of the few classic mixed drinks that includes Scotch whisky. It was named for Rudolph Valentino's 1922 bullfighter movie *Blood and Sand*. The cocktail itself isn't generally thought to be a good mixture of flavours, it's possible that it was only ever created to market the film. The red juice of the blood orange in the drink helped link it with the film.

Brio Coupe 21cl - L8941

Mixology
Club

—HERITAGE EDITION—

The *Last Word* cocktail was first served around 1920 in the Detroit Athletic Club and was later introduced to New York. Curiously, despite huge popularity in the first half of the twentieth century the cocktail fell into oblivion after World War II. Only in 2004 was the cocktail rediscovered and resurrected into mainstream mixology again by Seattle bartender Murray Stenson.

SERVICE OF WINE

The Chef & Sommelier range of decanters pays special attention to the service of wine. Each decanter is aesthetically pleasing whilst remaining highly functional.

Stoppers are employed to reduce evaporation. The dome bottom on the **Open Up** and **Explore** decanters allows the waiter perfect balance and control when serving at the table.

Bystro Decanter / Carafe 17½oz 0.5L	LCE 0.5L	H: 212mm - D: 80mm		6	F0NAJ
Bystro Decanter / Carafe 17½oz 0.5L		H: 212mm - D: 80mm		6	C2706

Fluid / Fluid Colors

A decanter for wine, water or fruit juice, the **Fluid** collection is clever and versatile when it comes to service. Two small sizes put a retro stamp on tables, with their waiter style stopper. This preserves and protects the drinks, just like the plastic stopper on the 0.5 L, 0.75 L and 1 L. The structured collar of the decanters sets the volume to serve and avoids overfilling. The 0.75 L stylishly presents sparkling water with slices of lemon.

The ceramic material used for Chef&Sommelier™ and Arcoroc™ collection is of **remarkable quality** (it contains a high percentage of alumina) , which has no equal to its resistance.

- **Superior shock-resistance:**
Arcoroc™ and Chef&Sommelier™ porcelain offers a **superior shock resistance** that is perfectly adapted to **professional intensive usages**.
- **Long-lasting scratch resistance.**
- **Excellent dishwasher resistance:**
Both surface and decoration even after 2,000 industrial washes.
- **Cream white porcelain:**
A seal of quality and purity.
- **Heat retention levels:**
As effective as those offered by other materials currently available on the market.

In 1958, the Arc research and development department created and since then perfected a new generation of dinnerware material : **Opal**. Food service professionals all over the world have opted for that all-round professional material. A solution that is economical, ecological and practical.

Up to 3 times more shock-resistant than porcelain: the secret of its unbeatable durability.

Opal products are resistant to variations in temperature of 130°C: they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

Fade-resistant surface and pattern, even after 2,000 industrial dishwashing cycles.

As efficient in keeping food hot as other materials such as porcelain. (at the same thickness and weight)

Can be safely handled after microwave use.

100% Opal, 0% porosity. 100% protection against bacteria.

Louison

Standing out thanks to its retro look, the modern aspect of the Louison collection will take you by surprise. Combining the past and the present, this collection adds a touch of drama to your tables. The glass used guarantees perfect resistance to dishwasher use. This tempered collection has greater resistance to knocks and thermal shock.

The timeless, elegant style of the **Intensity** collection suits all dining environments. It is so vast that it is sure to have the perfect product for you, whatever your requirements: large, flat plates, soup or pasta dishes, with or without rims, bowls and cups for hot drinks, individual bowls and bowls, all perfect for table service and buffets. The success of this collection also lies in its exceptional quality: resistant to shocks, knife scratches and professional dishwashers. The longevity of the Zenix® dinnerware will keep down your restocking costs.

Product Information

Thanks to an innovative manufacturing process, Zenix combines the refinement of a warm white colour, perfect for food presentation, with advanced technology.

Zenix is also remarkable for its flawless finish to the face and base of each item. Completely smooth foot and no pin marks.

Zenix™ is up to 3 times more resistant to shocks and chipping than porcelain:
Savings in terms of budget and restocking costs.

Zenix™ has a perfectly smooth and non-porous reinforced surface. Knives slide naturally across Zenix™ without leaving a trace*. In normal washing and using condition, Zenix™ plates keep their beautiful aspect for over 2,000 industrial cycles.

*Preferably used with knives hardened beyond 500 Vickers/norm ISO 8442. Ceramic knives should not be used.

Zenix™ products are resistant to variations in temperature of 130°C: they can be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

100% Zenix™, 0% porosity. 100% protection against bacterias.

CONTROLLED WEIGHT

Catering Professionals are constantly monitoring the weight of the food they serve to their customers. To ensure the measurement is as accurate as possible, it is important that the weight of the plates they use do not vary, or vary only slightly from one item to another.

This is where Arcoroc™ comes in, by controlling the weight of its items, whether the products are made from Zenix™, Opal or glass.

We guarantee a tolerated weight standard

according to the following rule:

- +/- 10 g for items weighing <= 500 g
- +/-15 g for items weighing > 500 g

Delice Noir Rectangular Plate 13.8" x 10" 34.9cm x 25.4cm	H: 41mm D: 350mm	6	12	E7837

The **Delice** collection combines curves and angles in a stylish movement, at the cutting edge of chic contemporary design. The opal plates, salad bowls and individual bowls have attributes essential to professionals seeking the very best: 100% useful surface area, square shapes that take up less space on buffets, opal resistant to impact, scratches and intensive washing. Make a bold, striking statement by combining **White Delice** and **Black Delice** collections.

Evolutions Side / Salad Plate 7 ⁵ / ₈ " 19.5cm	H: 18mm D: 195mm	6	24	E6983

The name expresses an ambition: that of encouraging creativity in all kitchens. Comprising flat, soup, oval and rectangular plates (with or without rims), individual bowls, ramekins, salad bowls, and more, this all-inclusive collection will meet all serving requirements. With its gentle and sleek lines, and granite and black versions, it suits every mood. Another widely appreciated asset is its exceptional resistance to shocks, temperature variations and intensive washing.

YES PLEASE

Desserts have never been so much fun and Italian Gelato shops are becoming more and more popular. Our love of calorie busting Monster Desserts is driving a whole new market segment. Now, the dessert is a meal in itself and the classic ice cream parlour has been re-invented.

The scent of jam jars, homemade treats and vintage style will float over your buffets. The glasses from the **Eskale** collection reinvent a world of authenticity that is currently all the rage, and follow the current trend for repurposing objects.

Banana split or milkshake?
Our customers' wishes are
our command. The **Quadro**
collection provides the two
glasses dedicated to these
famous desserts for decades.
Just like the jugs from the same
range, they have been classics
since the 80s!

The dessert dishes in the
Sorbet collection will brighten
up your tables with their
dazzling transparency that will
bring out the colours of your
frozen desserts. In the great
dessert tradition, these Sorbets
combine festive style with top
performance.

Jazzed

Add a touch of swing to your desserts with the ultra-modern design of the **Jazzed** collection dessert bowls. The two sizes of 25 or 41 cl let you play around with volumes and the heavy base helps showcase your sweet creations and ensure they remain stable on the tray. Tall glasses add drama to the table, as do the frosted and swirled effects featured on the cups. They play with the light and their refreshing suggestion and fanciful look enhance your sweet and colourful creations. A plain model is also available if you prefer modest design and fluid, generous lines.

THE ART OF THE CAFÉ

The Nectar collection is one-of-a-kind, with a perfect balance of elegance and technicality. The design of each piece has been painstakingly thought through to develop one of the most expert collections on the market: with a different size for each type of coffee, an arched base to develop the foam, thick sides to keep drinks warm, a fine and narrow rim to conserve the aromas, and an ergonomic handle.

Description	Dimensions	Inner	Outer	Code
Nectar Cup 12 1/4oz 35 cl*	H: 86mm - D: 130mm	6	24	L9606
Nectar Cup 7 3/4 oz 22 cl*	H: 74mm - D: 112mm	6	24	L9605
Nectar Cup 2 3/4 oz 8 cl**	H: 52mm - D: 83mm	6	24	L9603
Nectar Saucer 6 1/4" 16cm*	H: 15mm - D: 160mm	6	24	L9617
Nectar Saucer 4 5/8" 12cm**	H: 13mm - D: 120mm	6	24	L9616

The lid of the tea pot can be used on the Nectar tea cups for infusing tea and doubles as a saucer

Description	Dimensions	Inner	Outer	Code
Nectar Teapot 14 oz 40 cl	H: 104mm - D: 175mm	2	8	L9619
Nectar Tea Lid 3.7" 9.6cm	H: 90mm - D: 105mm	6	24	L9623
Nectar Sugar Bowl 3 1/2" 11cm 20cl	H: 55mm - D: 110mm	6	24	L9618
Nectar Creamer / Milk 4 1/4oz 12 cl	H: 60mm - D: 69mm	4	16	L9624

Nectar Moka / Coffee Spoon 4 1/4" 10.8cm	H: 108mm		12	T9011

The lip has been designed to arch inwards and is soft to the touch, ensuring the flavours and aromas are held until tasting.

The wall of the cup gradually changes thickness to aid heat retention and also to 'shape' the inner bowl to perfect ovoid shape, perfect for coffee tasting.

The cups in the **A La Bonne Heure** collection take an irreverent approach to geometry. The rectangular handle contrasts with the perfect cylinder made of flawlessly transparent glass, which forms the body of the cup. The range includes cups for espressos, drip coffees, teas and hot chocolates. In addition to being stylish, the cups are made from heat-resistant tempered glass and feature thick walls to prevent burns.

Description	Dimensions	Inner	Outer	Code
A La Bonne Heure Mug 14oz 40cl	H: 145mm - D: 72mm	6	24	L7136
A La Bonne Heure Mug 11¼oz 32cl	H: 112mm - D: 72mm	6	24	L5727

A La Bonne Heure Cup 3¼oz 9cl	H: 67mm - D: 52mm	6	24	L7134

The **Aroma** collection knows everything there is to know about the phenomenon of enjoying coffee and uses that knowledge to produce style, ergonomics and clever design.

The cups are transparent, revealing the rich colours and textures of the coffee. Their contemporary design makes them very easy to hold, thanks to the recess in the compact handle. The tempered glass keeps the coffee hot and ensures resistance to the impact and chips that come from heavy use. The cups are stackable for easy storage.

Cutlery information

DESIGNED FOR INTENSIVE AND PROFESSIONAL USE

The reliability and durability is underpinned by strict specifications and rigorous checks at each stage of the manufacturing process.

Most of our collections are done in 18/10 - AISI 304 stainless steel, what is ideal for use in high-quality cutlery and to guarantee resistance, the thickness of the cutlery is examined in minute detail.

Some of our Arcoroc™ collections are done in 18/0 - AISI 430 performance polished stainless steel, also resistant and designed for a long life.

Each piece of our cutlery has been designed to combine elegance with perfect ergonomics and balance.

Our cutlery is wash resistant and respects dinnerware material by avoiding scratches.

The bending strength and torsion resistance has been designed to be above the requirements of the industry.

Regarding our knives some are available in both solid handle and hollow handle formats. Our solid handle knives have been created to balance weight with design and use the finest quality stainless steel.

Our hollow handled knives use the traditional 3 piece composition, highest grade 18/10 - AISI 304 stainless steel handle (2 piece) and high grade (AISI 420) hardened knife blade (3rd piece), to give the optimum in quality, longevity and design.

All of our cutlery collections are dishwasher safe.

All Chef & Sommelier cutlery lines are backstamped: a guarantee of uncompromised quality.

Perfect balance: each piece of Chef&Sommelier cutlery has been designed to combine elegance with perfect ergonomics and balance.

The bending strength and torsion resistance of Chef&Sommelier cutlery has been designed to be above the requirements of the industry.

Alabama 18/10

The **Alabama** collection juxtaposes the sensual, rounded contours of the spoon bowls and knife blades with the angular, contemporary ends of the handles. This geometric dialogue gives a modern touch to a line that appears timeless. The shine of the mirror finish refines this dinner service. Made from 18/10 stainless steel, they can withstand repeated washing in the professional dishwasher for a long service life. The solid knives are made from 13/0 stainless steel to ensure their sharpness.

HIGH SHOCK RESISTANCE

Up to 3 times more resistant than porcelain for a long durability

PERFECTLY STACKABLE

Space saving

THERMAL SHOCK RESISTANT

Oven glass products are resistant to variations in temperature of 180°C

MICROWAVE SAFE

Oven products can be safely handled after microwave use

OVEN SAFE

250°C

PERFECTLY NON-POROUS

Non porous material. No migration risk particles into the food

PROFESSIONAL 2000 CYCLES

Fade-resistant surface even after 2000 industrial dishwashing cycles

FOOD SAFE

Hygienic and healthy

EASY TO HANDLE

30% lighter than porcelain. Ergonomic and practical.

HIGH RESISTANCE OVEN

So Urban

So Urban is a range of durable, re-usable & returnable glass containers. A real alternative to single-use plastic, the collection has been specifically designed for catering, take-away sales and delivery.

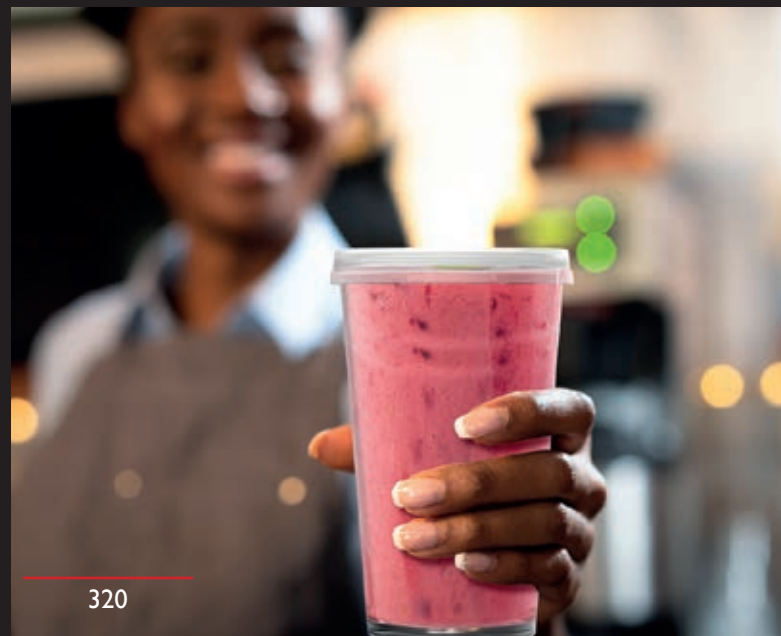

In addition to being made of glass, a healthy material guaranteeing organoleptic quality and food safety, the containers offer many advantages: transparency for perfect presentation, stackable, lightweight (30% compared to a tempered glass item of the same capacity), leakproof, microwaveable, high resistance up to 5 times, compared to non-tempered items
Tempered glass - PE lid.

You'll immediately recognise the glass jars from the **Club** range, which keep your products airtight dry thanks to their plastic-edged lids. With their slightly vintage look, they can take the place of your bathroom decorations, stylishly showing off multicoloured bath salts and novelty cotton wool balls.

Product Information

New generation of lead-free crystal, combining superior strength with aesthetic excellence. Krysta products are fine, lightweight, extremely transparent, designed for intensive daily use and highly resistant to shocks and detergents. For more information see page 8.

This label certifies that the product is made with only the highest quality glass with an exceptional level of purity. For more information see page 48.

Our Fully Toughened / Tempered ranges offer an increased life span, increased strength, thermal shock resistance and safer breakage pattern. For more information see page 48.

SAN plastic has a high resistance to shocks and shows no signs of deterioration after over 2,000 cycles in a professional dishwasher. All SAN items are guaranteed Bisphenol A (BPA) free.

Ceramic material of remarkable quality (it contains a high percentage of alumina), which has superior shock and scratch resistance. For more information see page 216.

Thanks to an innovative manufacturing process, Zenix combines the refinement of a warm white colour, perfect for food presentation, with advanced technology. For more information see page 246.

Opal Glass is a new generation of dinnerware material created in 1958 by ARC Group. This all-round professional material is economical, ecological and practical. Up to 3 times more shock-resistant than porcelain. For more information see page 216.

Most of our collections are done in 18/10 - AISI 304 stainless steel, what is ideal for use in high-quality cutlery and to guarantee resistance, the thickness of the cutlery is examined in minute detail. Our cutlery is wash resistant and respects dinnerware material by avoiding scratches. For more information see page 298.

A laser is used to create delicate nucleation points within the base of the bowl. These points are designed to agitate the sparkling wine releasing a gentle and constant helix of bubbles, delighting the eyes and taste buds alike. For more information see page 150.

Very thin rim to convey the subtlety of the taste and aromas. The fine rim (0.8-0.9mm) creates a pleasant feel against the lips: one forgets about the glass and can pay full attention to the wine.

Items especially designed to be stacked.

Completely safe for service: When a shock or series of shocks manages to rupture the exterior shell of the fully toughened glass, the resulting broken glass shards are not sharp to the touch.

Fade-resistant surface and pattern even after 2000 industrial washes.

Guaranteed Bisphenol A (BPA) free.

Product weight does not vary or varies only slightly from one item to another. Tolerated weight standard:
- +/- 10 g for items weighing <= 500 g
- +/- 15 g for items weighing > 500 g
For more information see page 246.

Premium beer glasses designed to improve the beer tasting experience. Nucleation paint is used to create and maintain the visual appeal of the beer head. For more information see page 110

Eco-friendly packaging. For these items we have reduced the packaging material used to minimise our carbon footprint and cost of packaging disposal.

The color is part of the composition of the glass and is produced by mixing various metal oxides into the glass at the time of manufacture.

H - Height in mm
D - Maximum Diameter
L - Length
Inner - Quantity in inner carton
Outer - Quantity in master carton
LCE - Lined and CE Stamped
CE - CE Stamped
LINED - Lined only
